

Eye Walker

Blush: This is a suggestive romance (love scenes are not graphic) Forensic anthropologist Dr. Faith Walker has made a career of fooling people. When they ask her to identify a long dead loved one they do not realize her reconstruction of the skull has less science to it than magic. For when Faith touches the skull she can see the departed and many other things. Self-made entrepreneur Vince DeLuca has figured out Faith's secret and forces her to help him find his dead fiancée so he can close the book on the worst nightmare of his life. Perhaps not the worst, for Vince is plagued by prescient dreams about things blowing up. This unlikely duo, one who can look into the past, and one with horrific glimpses of the future, teams up to solve a murder and track a sociopath with the uncanny ability to set a multitude of death traps for them.
