

Intelligent Governance for the 21st Century: A Middle Way between West and East

For decades, liberal democracy has been extolled as the best system of governance to have emerged out of the long experience of history. Today, such a confident assertion is far from self-evident. Democracy, in crisis across the West, must prove itself. In the West today, the authors argue, we no longer live in industrial democracies, but consumer democracies in which the governing ethos has ended up drowning households and governments in debt and resulted in paralyzing partisanship. In contrast, the long-term focus of the decisive and unified leadership of China is boldly moving its nation into the future. But China also faces challenges arising from its meteoric rise. Its burgeoning middle class will increasingly demand more participation, accountability of government, curbing corruption and the rule of law. As the 21st Century unfolds, both of these core systems of the global order must contend with the same reality: a genuinely multi-polar world where no single power dominates and in which societies themselves are becoming increasingly diverse. The authors argue that a new system of intelligent governance is required to meet these new challenges. To cope, the authors argue that both East and West can benefit by adapting each other's best practices. Examining this in relation to widely varying political and cultural contexts, the authors quip that while China must lighten up, the US must tighten up. This highly timely

volume is both a conceptual and practical guide of impressive scope to the challenges of good governance as the world continues to undergo profound transformation in the coming decades.

FEATURED LISTINGS DAVID J. BERGMAN Realtor® (831) 246-1155 FIND A HOME City, Zip Code, MLS# or Area Price min Price max SEARCH BUYERS! We have a common goal: Making you a homeowner. Let's make it happen! Ensuring you exceptional service at every step of your home buying process. Search listings from the convenience of your home.
