

When You Ride Alone You Still Ride with Bin Laden: What the Government Should Be Telling Us to Help Fight the War on Terrorism - And Still Isn't (Updated)

Political provocateur Bill Maher tells it like it is in a useful and hilarious guide for the many Americans who want to do more here at home to help the war effort, but are at a loss as to what. Thirty-three dynamic new posters and several classics from our governments archive, accompanied by text from one of our leading pundits and cutting-edge comedians make this the perfect book for this time in our nations history, the zeitgeist of one-year-post-9/11 America. This is the book that will help Americans make the connections between what we do and how it can help our troops and ourselves. Having always defined political correctness as the elevation of sensitivity over truth, and being an optimist, I guessed that after 9/11, Americans would judge all matters pc to be an indulgence herewith unaffordable. Boy, was I wrong.
